

Pumps you can rely on

Domestic Monoblock Pumps DMS & DMS N Series

Pumps you can rely on

Domestic Monoblock Pumps DMS & DMS N Series

Convenient, rugged and reliable pumps for the household, they have proven their performance over many decades.

Salient Features

- Good self-priming action even with air entrapped.
- High head due to regenerative action.
- Very convenient as priming is rarely necessary.

Applications

- Proven pump for domestic water supply.
- Pressure boosting for residential water supply.
- Overhead storage water-tank filling.
- Car washing.
- All applications requiring self-priming action upto 8 metres.
- Filter point pumping.

Constructional Features Motor

- Rugged Single Phase TEFC motor with dynamically balanced rotor.
- Suitable for 200-240V Single Phase 50Hz supply.
- Rigid cast iron motor frame.
- High torque capacitor start motor for DMS Series.
- High torque capacitor start - capacitor run motor for DMS N series.

Pump

- Unmatched suction performance.
- Rigid and accurate cast iron casings.
- Highly wear resistant bronze impeller.
- Replaceable bronze shaft sleeve.
- Carbon vs ceramic mechanical seal.

Product Data

Model	Rating HP/kW	Pipe Size (mm x mm)	Total Head in Metres							
			6	9	12	15	18	24	30	36
DMS 02	0.5/0.37	25 x 25	52	48	44	38	31	--	--	--
DMS 03	1.0/0.75	25 x 25	59	59	55	53	50	43	36	30
DMS 02 N	0.5/0.37	25 x 25	50	46	42	36	29	--	--	--
DMS 03 N	1.0/0.75	25 x 25	57	57	53	51	48	41	34	28
